EXPERIENCE

[TikTok](#), Seattle, USA— Sr Site Reliability Engineer

SEP 2023 - CURRENT

Led SRE team for content moderation platforms

Architected and implemented web application for capacity resource planning [GoLang, Hertz, Kitz]

[Deloitte](#), Seattle, USA— Sr Specialist

JAN 2021 - AUG 2023

Led strategies for cloud applications suitability and cloud migration patterns [AWS]

Led SRE team for infrastructure architecture automation for compute instances and container nodes [AWS, Terraform]

Architected and implemented platform for developing and deploying containerized applications and cloud native solutions for web applications [AWS, GCP, Terraform, Python, Kubernetes]

[GE Healthcare](#), Seattle, USA— Sr Software Engineer

DEC 2017 - OCT 2020

Led development team for self service developer portal following healthcare quality management processes. Platform serving over 800 registered users, 30 partners, 300 published catalog items

Designed and implemented content management web application following API driven serverless architecture including use of containerization services. [AWS CloudFront/Route53/Cognito/API Gateway/Lambda/Stepfunctions/EC2/ECS/EKS/S3/RDS/ Redshift/CloudWatch/Quicksight, Drupal, APIgee, Angular, Docker, Kubernetes]

Architected and designed infrastructure for native cloud application following best practices of well-architected frameworks with automated deployment through templates for build and release. [AWS CloudFormation, Terraform, Python, Node.js, Angular, NoSQL, Drupal, APIgee]

[TSRI](#), Kirkland, USA— Software Engineer

DEC 2015 - DEC 2017

Designed and implemented pipeline for cloud infrastructure for web application based on java frameworks with Apache servers [AWS, Python, Java, Node.js, Maven, Gradle]

Developed full-stack web application for documents auditing [JavaEE, Apache Tomcat, Node.js, Angular, PostgreSQL, MySQL]

Worked on backend services for source code transformation [Java, ANTLR, C++]

[Tyemill](#), Seattle, USA— Software Engineer

JUN 2015 - SEP 2015

Designed and implemented backend services for web application for financial technology [Ruby, Heroku]

[TMA Solutions](#), Ho Chi Minh City, Vietnam - Software Engineer

JUN 2014 - SEP 2014

Designed backend service for image processing of cells biology [R, Python, C++]

SKILLS

Java, Python, Go

Node.js/Typescript

Javascript/HTML/CSS

SQL, NoSQL

Kubernetes, Docker

Terraform/CloudFormation

AWS

BACKGROUND

Full stack web application development

Cloud architecture and development

Infrastructure as Code

Serverless and containerization with REST APIs

Agile methodologies and Software Development Life Cycle (QMS, ALM)

EDUCATION

[University of Washington](#), USA
Masters in Computer Science

[University of Washington](#), USA
Bachelors in Mathematics

LANGUAGES

French - native

Vietnamese - native
